## SUMMARY

I am a software engineer with expertise in Angular,node , Spring, Git, and Android, transitioning from a background in chemistry. I have a robust foundation gained from my experience in the pharmaceutical industry, particularly in R&D labs. My current role as a technical support specialist for Shimadzu instruments has honed my problem-solving skills and attention to detail, ensuring the seamless operation of analytical instruments. In addition to my initial background in chemistry, I have cultivated a strong interest in software engineering, specializing in Java and Angular , Node
